

DIAMOND MESH  
**COILED SPRING FENCING**

MANUFACTURED BY  
**COILED SPRING FENCE COMPANY**  
 WINCHESTER, INDIANA  
 U. S. A.

**THE STRONGEST FENCE MADE**

*From FACTORY Direct TO YOU*

*AT FACTORY PRICES*

PATENTED JUNE 28, 1898

**FARM FENCE, STYLE NO. 100.**

This is our STANDARD COILED SPRING FARM FENCE. In addition to it being the strongest fence made, the mesh is so small that it will turn anything in the stock line. This Fence, 56 inches high, has a breaking strain of 19,448 pounds. *This fence is made in the following heights: 18, 22, 26, 31, 36, 44, 48, 52, 56 and 60 inches.*

W. W. THOMSON, Leaf, Miss, Oct. 14, 1905, writes: "The catalogue I wrote for some time since was for another party. If you have not already received an order from him I think you will shortly. The fence I bought of you last spring went up all O. K. and gives satisfaction in every way. It is tight and straight at all times and everybody who sees it admires it. A little later on I will place an order with you for 150 or 200 rods more."

PATENTED JUNE 28, 1898

**HOG FENCE STYLE, NO. 102.**

The above cut represents our Style No. 102 Hog Fence, 26 inches high. This Fence is made of the same material as Style No. 103, with exception that one of the No. 12 fine wires is left out. It is designed to meet the wants of those desiring a cheaper fence than Style No. 103. For a cheap fence it is very popular and well worth the money asked for it.

**To Our Customers.**

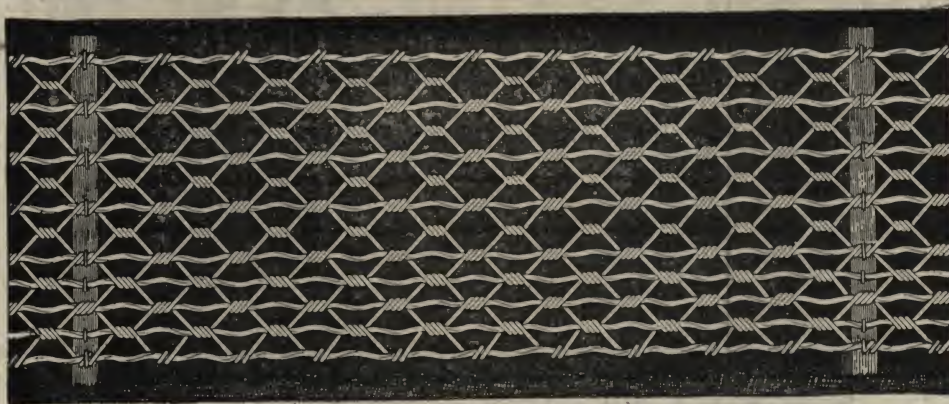

We want your business for we well know we have Fencing that will more than please you in every particular. Our greatly increasing business convinces us that we have the best Fence on the market, and we know the Fence itself will convince you of this fact.

# STRONGEST FENCE MADE

Each Rod and Each Piece Guaranteed

Sold on Thirty Days Trial

**SPECIAL FARM AND SHEEP FENCE, STYLE NO. 103, 6-INCH MESH.**

This is the kind of Fence that will keep the wolves and dogs away from your sheep, and will always keep Sheep, Hogs, Horses, Cattle or anything where they belong. Can you imagine anything prettier than to have your fields fenced with it? *This fence is made in the following heights: 24, 36, 44, 48 and 52 inches.*

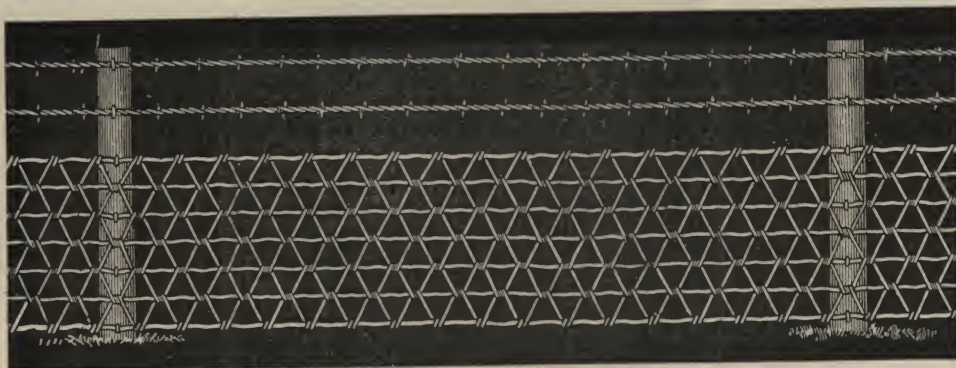

WM. CONFER, Muncy, Pa., May 4, 1905, writes, "In regard to the fence I purchased of you some time ago I cannot help telling you how pleased we are with it. Had no trouble in putting it up and the stretcher we have decided to keep. I have handed your catalogue to a neighbor who is thinking of purchasing fence from you."

**SPECIAL COILED SPRING HOG FENCE, STYLE NO. 104.**

Style No. 104 is positively the strongest and best Hog Fence made. The meshes are woven so closely that it will turn small pigs, and the barb wire at the bottom prevents hogs from rooting along the fence. By weaving the barb wire into the fence it is impossible for stock of any kind to injure themselves on it.

FRED LINNEY, Taylor, Pa., June 22, 1905, writes: "We received the wire fencing all right and are highly pleased with it. It is a good strong fence and nothing can get through it, not even a chicken. Many people have come to look at it and they all say it is good and strong and just the thing for a fence. We have recommended it far and wide."

**STYLE NO. 101-6 INCH MESH, WITH TWO BARBED WIRES ABOVE.**

Above cut shows our light hog fence. Those desiring a cheaper fence than our regular styles will find this fence highly satisfactory.

# STRONGEST FENCE MADE

Freight Paid on Orders of 40 Rods or more

Your Money Back if you are displeased

STYLE NO. 100, WITH TWO BARBED WIRES ABOVE.

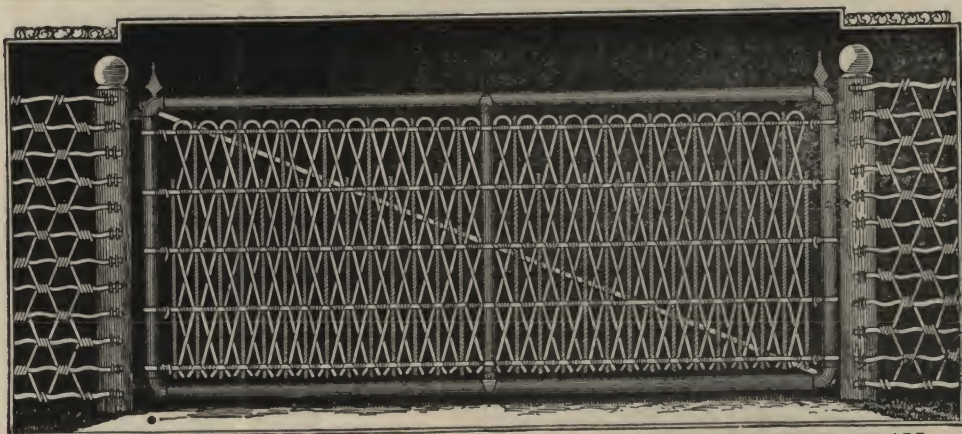

Above cut shows our Standard Coiled Spring Fence, Style No. 100, 36 inches high. By adding two Barbed Wires above the fabric, placing the first 9 inches and the second 18 inches above the fabric, you have a 54-inch-high fence that will turn small pigs, hogs and sheep, as well as large stock, at little expense

J. WATSON BAIN, Forked Deer, Tenn., Feb. 6, 1904, writes: "Your prices for this year have just been received. I had intended writing you before this but simply neglected it. I ordered \$100.00 worth of fencing last year, including staples and a stretcher, and will say I am highly pleased with my fence. It will turn the jumpingest mule by adding a strand or two of barbed wire at the top. I am using your style No. 100, six inch mesh and it will turn all kinds of stock. Your fencing is the coming fence in this country. Some have erected the fence here but it is very inferior to your style, which will be proven to them. It does not stand up as well and does not look nearly so well as yours. I have handed your catalogue to one or two parties who wished fencing and think they will order of you. I have some mules that can jump any fence that a deer can jump but they cannot get over your 36 inch fence with two barb wires at the top of it.

STYLE NO 107. 4-INCH MESH.

We have always had a great demand for a nice, neat, strong and durable fence for Yard, Division and Cemetery Fencing at a price within reach of all. Style No. 107 answers the purpose in every particular

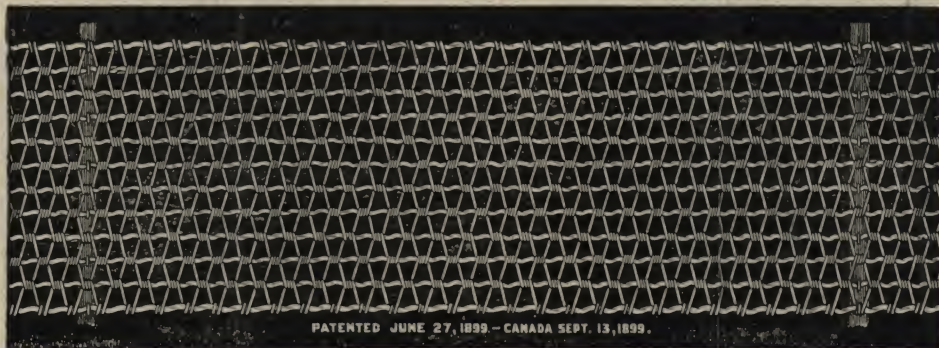

THE STRONGEST AND BEST FARM GATE MADE. PRICE WITHIN REACH OF ALL.

# STRONGEST FENCE MADE

All Made of High Carbon

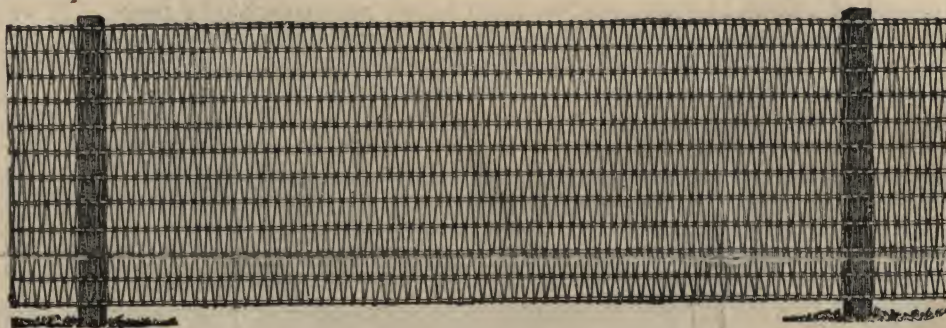

Heavily Galvanized Spring Steel Wire

**POULTRY FENCE, STYLE NO. 105. 2-INCH MESH.**

Top and bottom wires No 10 Coiled Wire; balance of line wires No. 13 Coiled Wire; mesh wires No 16 This Fence will turn Horses, Cattle, Hogs, Rabbits, Poultry, Sheep and Dogs.

BERT E. SAYRE, Letart, W. Va., July 31, 1905, writes: "The fence received from you last week proved so satisfactory that I have decided to order 90 rods more of style No. 103, for which I enclose my check. I hope you will forward without delay.

**HERCULES POULTRY FENCE, STYLE NO. 110.**

Guaranteed to turn Sheep, Dogs, Wolves, Rabbits and Poultry. No top or bottom rail required. Posts can be set from 12 to 30 feet apart with perfect safety. The parallel wires are four inches apart. The mesh or diamond is only two inches wide at the farthest point. We use No. 12 wire at top and bottom; balance of parallel wires are No. 16 and mesh wires No. 18. Hercules Poultry Fencing, 59 inches high, has a breaking strain of 9,152 pounds, and is guaranteed not to sag or buckle. Regular size rolls contain 5, 10, 20, 30 and 40 rods, but we can make any number of rods desired over 5 rods in length.

J. S. GRUNDMANN, Watertown, Mass., May 31, 1905, writes: "Your shipment of Coiled Spring Fencing received in good order and after having set it up I must say that I am well pleased with it.

**COILED SPRING WOOD FRAME FARM GATE.**

Frame made of heavy timbers, rear upright 4x4; all other parts 2x4, with a one inch re-inforcing piece on front. Covered with extra heavy Stock and Poultry Fence, No. 105. Hinges, Hook and Eye of wrought and malleable iron. Hinge is solidly bolted to top and bottom of frame, thus relieving rear upright from carrying weight of gate. Made only in one size, 12 feet long, 50 inches high. Posts should be set 12 feet 4 inches apart. Price does not include posts, but does include hinges and latch. All gate frames are painted red. Do not think they are not good because they are cheap. The only way we can sell them at the price is because we make large quantities and furnish them at almost cost to accommodate our customers on fencing.

(OVER)

Regular size rolls are 10, 20, 30 and 40 rods. We can make any special lengths above 10 rods on short notice without extra charge. For special lengths of less than 10 rods we make an additional charge of 50 cents per roll. In making up your orders please use as many 20, 30 and 40 rod rolls as you can. The fence is easily cut without waste and we can make the large size rolls to better advantage.

Size of bars used in all Styles except Nos. 105 and 110 are No. 9 for top and bottom and No. 12 for intermediate—all being Coiled Spring Steel Wire. Bars are woven together with No. 14 in all Styles except Nos. 105 and 110. For Style No. 105 we use No. 16 for wear wires. For Style No. 110 we use No. 18. For Style No. 105 are No. 10 for top and bottom, No. 12 for intermediate. Size of bars used in Style No. 110 are No. 12 for the top and bottom and No. 16 for intermediate—not coiled.

### PLAIN AND ORNAMENTAL GATES.

2 1/2	feet wide, Plain,	\$2 10;	Ornamental,	\$2 45
3	feet wide, Plain,	2 35;	Ornamental,	2 85
3 1/2	feet wide, Plain,	2 65;	Ornamental,	3 25
4	feet wide, Plain,	2 80;	Ornamental,	3 40
5	feet wide, Plain,	3 35;	Ornamental,	3 85
6	feet wide, Plain,	3 80;	Ornamental,	4 35
8	feet wide, Plain,	4 65;	Ornamental,	5 20
